

FINCHINGFIELD PARISH COUNCIL

RISK REGISTER REVIEWED AND ADOPTED AT 27th. JUNE 2023 meeting

Reviewed and Adopted 27th. June 2023 meeting

FINCHINGFIELD PARISH COUNCIL

RISK REGISTER

The assessment of the risk attached to any and all of the Council's actions and responsibilities forms an essential part of all Council decisions. Risk mitigation (the reduction in the level of risk where it is deemed to be too high) is integral to many of the Council's policies. This is seen most obviously in the Finance Policy and the Emergency Plan, but it also forms an important part of the detailed Standing Orders which govern the way in which the Council carries out its business, and the Code of Conduct which applies to all members of the Council.

There are two aspects of Risk that need to be considered: the probability of the occurrence of an event and the impact of that occurrence. It is the combination of these two that determines the level of the perceived risk. In the tables that follow, these two aspects are assessed separately, and their combined effect used to indicate the level of risk.

For example, if the probability of an event happening is very low, (eg, if procedures are in place to minimise the chances of it happening) then the overall risk level is low, even if the impact would have been high if that event had happened. It is unlikely to happen.

But if the probability of occurrence is high, and the impact of that occurrence is also high, there is a very real risk associated with that event, and mitigating action should be undertaken. In the following tables, the higher the number of ticks in the 'Risk' column, the higher the perceived risk, and the greater the need to address the issues raised promptly.

The second table summarises the items with the highest perceived levels of Risk. Finchingfield Parish Council needs to address these issues at the earliest opportunity.

In drawing up this Risk Register, a very wide range of topics have been considered; but such a list is unlikely ever to be completely comprehensive. And there will also, inevitably, always be some issues outside the terms of reference of the Parish Council that may have a large impact on the community. The Register requires many Council policy documents to be reviewed annually. It is recommended that the Risk Register itself should also be reviewed and updated annually.

	IDENTIFIED RISKS	PROBABILITY OF OCCURRENCE	IMPACT OF OCCURRENCE	RISK	RISK MITIGATION / CONTINGENCY
1	<u>AIMS & OBJECTIVES</u>				
1.1	The Council's aims & objectives do not match the needs of the community	LOW	LOW	LOW	Currently no Parish Plan in place.
